

NOTICE OF PUBLIC COMMENT PERIOD

THE GROUP 6 RCRA FACILITY INVESTIGATION SAMPLING AND ANALYSIS PLAN SANTA SUSANA FIELD LABORATORY SIMI HILLS, VENTURA COUNTY

Public Comment Period: October 8 through November 7, 2008

The Department of Toxic Substances Control (DTSC) invites you to review and comment on the Sampling and Analysis Plan (SAP) for the Group 6 Resource Conservation Recovery Act Facility Investigation (Group 6 RFI). The SAP describes the additional field investigation DTSC is requiring in the Group 6 reporting Area to complete the surficial media characterization. After DTSC's review of Boeing's original submittal of the Group 6 RFI, and after considering public comments received, DTSC is requiring additional sampling in the Group 6 Area, which encompasses the former Sodium Reactor Experiment complex, the Old Conservation Yard, the Building 64 Leach Field, and the New Conservation Yard of the Santa Susana Field Laboratory. These areas are located in administrative Area IV on the northwest side of the Santa Susana Field Laboratory in the Simi Hills of Ventura County.
